Export Standard Terms & Conditions

1: All Quotes are only valid until the last working day of the month the quote was issued. After this the prices are liable to change depending on the Copper LME of the previous month.

2: Once an order has been confirmed as acceptable by Wrexham Mineral Cables (separate document will be issued) it will be liable to the terms and conditions set out in this and the standard terms of sale previously issued. If no response is received within 5 working days all terms will be deemed acceptable by the buyer. Delivery dates agreed between the buyer and seller are to be only changed with the consent of both parties.

3: Goods must be collected within 10 working days of the buyer being issued with a full packing list, if any outside inspection is required by the buyer this must be done within a further 10 working days unless previously agreed. Collection of goods must be made no later than 10 working days thereafter. Goods that are not collected within this timeframe will be stored off site and the buyer will be liable for all charges incurred. Once a pack list is issued the order is deemed complete. Any changes to initial orders at this stage may result in charges for repacking or regeneration of paperwork.

4: Large call off orders will only be held on the system for a maximum of 6 months, after this time the remaining goods will be cancelled off the order and the order called complete.

5: Orders placed on a letter of credit basis (LC) will be subject to a 2.5% administration charge. Orders will not be manufactured until the seller has a copy of the (LC) in their possession. Wrexham Mineral Cables will not be responsible for any banking / LC administration charges out of our control. All LC's will be irrevocable and 21 days for presentation of documents only. Our global marine insurance covers all shipments and copies will be issued at time of draft LC. Whilst WMC will aim to meet delivery dates plenty of consideration should be given on latest date of shipment and expiry date of LC.

6: Any goods that are on stock when the order was placed will be classed by the seller as saleable product up to the point the (LC) is in their possession. Goods sold on a customers standard credit account will be manufactured as per the production schedule and delivery dates agreed as per (3).

7: Independent testing: Wrexham Mineral Cables welcomes third party inspections on site. Where needed these are to be arranged and paid for by the customer. Wrexham Mineral Cables will not support any test results carried out outside non approved laboratories.
